PREFATORY NOTE

This is a list of the publications of the Library issued since 1897 with the exception of certain administrative publications now obsolete and others out of print.

The Library of Congress limits the free distribution of its publications to institutions; individuals may, however, obtain copies by purchase from the SUPERINTENDENT OF DOCUMENTS, GOVERNMENT PRINTING OFFICE, Washington, D. C., at the prices indicated in the list.*

Students will find helpful the reference lists noted on pages 36-47. The Library of Congress will be glad to cooperate with the college or school librarian and supply such of these lists as are fitted to the expressed need and available for distribution.

Printed catalog cards for the publications may be ordered from the Card Division of the Library of Congress by the card numbers which appear at the ends of the entries.

All documents of importance which relate to the history of the national
library are reproduced. Many picturesque incidents, many antiquarian

habits and prepossessions of statesmen of the first half of the century, and
the material illustrative of the political and literary conditions of the period
may be of general interest.

IN PRESS.

An issue, for the first time, of the full Journals of the Continental Congress, together with the reports prepared in and presented to that body, and such illustrative matter as throws light upon its proceedings and conclusions. These reports are extremely valuable for historical purposes, and have never appeared in print. The civil history of the Revolution and the financial expedients of Congress can now be described from this basic material.

Certain pages have been printed separately under the title *Bibliographical notes on the issues of the Continental congress*. Of these nine have been issued (1774-1782).

The basis of these notes is Paul Leicester Ford's "Some materials for a bibliography of the official publications of the Continental congress 1774-1789," first issued in the *Bulletin of the Boston public library*, and reissued in separate form in 1888.

The Court Book of the Virginia Company of London is one of the great manuscripts fundamental to American history now in the possession of the Library of Congress. Heretofore it has been accessible to the historian only in imperfect issues. As in the case of the Journals of the Continental Congress, the Library issues this text *in extenso* chiefly for the purposes of saving the original manuscript from wear and tear and for the convenience of investigators who can not pursue a study of the text at Washington. Publication in this form will make it available also to persons who would not master the difficult chirography of the original. These purposes are subserved by the publication of a limited edition and by its sale at a price not prohibitory to any institution or individual having a serious use for it. The edition has accordingly been limited to 1,500 copies. For sale by the Superintendent of Documents, Government Printing Office.

— An introduction to the records of the Virginia company of London, with a bibliographical list of the extant documents, by Susan M. Kingsbury. 1905.

214 p. 31 x 24½^{cm}.

Paper, 25c 5-20004

Limited edition of 350 copies. Reprinted from the Records of the Virginia company.

Three hundred and seventy pages are given up to the catalog of engravers, while the remaining pages contain the three indexes: Engravers arranged chronologically by schools, Artists, and Portraits. It is designed primarily for distribution to institutions having collections of prints; and beyond this, so far as may be practicable, for exchange in return for publications similar in nature. It is not, however, for general distribution, although a few copies are obtainable at cost price, \$3.20, from the Superintendent of Documents, Government Printing Office.

* — Part 2: Dictionary. 1904.

485 p. 24½^{cm}. Paper, 15c; cloth, 25c 4-32507

At the World's Columbian exposition in 1893 a list of 5,000 volumes carefully selected by cooperation, was published by the U. S. Bureau of education as the "Catalogue of the A. L. A. Library." The present volume was prepared by the New York State library and the Library of Congress under the auspices of the Library association publishing board. It was designed as a guide to librarians in buying books; in answering inquiries for the best book on a given subject; and to take the place of the printed catalog in small public libraries. A consecutive number to be used in ordering printed catalog cards from the Library of Congress was placed after the price in each main entry.

The edition of the A. L. A. Catalog published by the Library of Congress in 1904 is exhausted. The Superintendent of Documents issued a reprint of the complete work, both parts in one volume, paper covers. This is for sale only, at \$1 per copy. Remittance must accompany the application, which should be directed to Superintendent of Documents, Government Printing Office, Washington, D. C.

An A. L. A. Catalog, 1904-1911, was published by the American Library Association Publishing Board, 78 East Washington Street, Chicago, Ill., to which address requests and remittances must be sent. Price, \$1.50. Copies will not be distributed by the Library of Congress.

A. L. A. PORTRAIT INDEX. Index to portraits contained in printed books and periodicals; ed. by W. C. Lane, Librarian of Harvard University, and Nina E. Browne, Sec. of A. L. A. Publishing Board. 1906.

1601 p. 24½^{cm}. Cloth, \$3 6-35019

In selecting the works to be indexed the needs of both small and great libraries have been kept in view. To make the work useful to the smaller libraries many commonly accessible sets and collections have been indexed, where the quality of the portraits contained in them was good. Genealogies and local histories have in general been excluded as they would have increased the bulk of the Index without a corresponding increase in value. The number of volumes indexed is more than 6,000, the number of persons portrayed about 40,000, and the actual number of portraits to which reference is made not less than 120,000. This work is bound in a style uniform with the A. L. A. Catalog. For sale by the Superintendent of Documents, Government Printing Office.
